

iScore Tuition Academy

TUTORING, **REDEFINED**

www.iscorelearning.com

What is iScore?

iScore Tuition is an innovation in traditional tutoring. It is the technology face of the conventional tuition model yet it retains the core and essence of personalized tutoring from the conventional model. iScore assures and guarantees the academic performance of all students with focus on optimal use of technology in main stream tutoring.

Addressing different learning styles, the iScore way!

There are three main types of learning styles: auditory, visual and kinesthetic. Since every student learns differently, it is important for the teacher to understand which style or combination of styles work best for her student to facilitate successful teaching and learning process.

Visual Learner

Learns best by seeing

Auditory Learner

Learns best by hearing

Kinesthetic Learner

Learns best by feeling or experiencing

iScore way: **No student left behind**

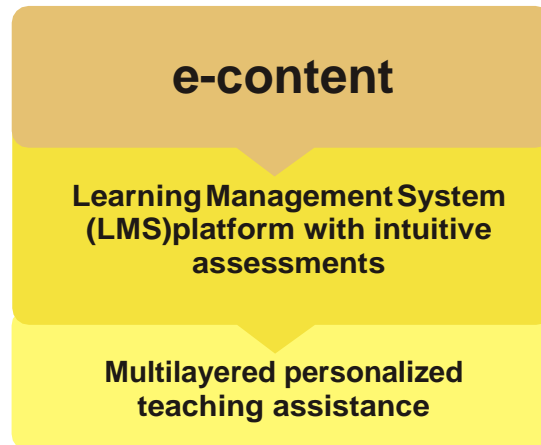

iScore tutoring is through innovative e-content material, created with relevant voice overs, visual animation and various activities for every learning objective in each lesson taught, to ensure no child is left behind in the tuition class irrespective of their learning style!

iScore Architecture: **Futuristic result oriented learning**

The iScore goal is to help improvise academic performance through innovative approaches in a learning and teaching environment. The pre-assessment modules are included to analyse the requisite learning skills to provide customized tutoring for every student. Further, there are appropriate learning reinforcement strategies and interactive activities to engage every student. The challenge is to leverage technology, still retaining personalized delivery in a conventional tutoring model.

iScore: Key ingredients

iScore tutoring is a multi-dimensional trend in technology assisted learning viz.

iScore: e-content repository

The **iScore** e-content repository is being used by over a million students across the globe. This repository spanning 4000 hours of e-content is rich in multimedia and graphics. It helps students in achieving conceptual clarity and in retaining learning terminologies. It adequately addresses all curriculum like CBSE, Samaseer, ICSE or any state board from kindergarten to higher secondary. It also has virtual laboratory modules, assessments and interactive activities.

iScore: LMS Platform

The e-content repository is mounted on this innovative and intuitive browser based LMS platform to schedule and deliver e-content in the tablet. This helps in tracking assessment scores, competency and skillset of each student subjectwise, lessonwise, topicwise, termwise and yearwise.

iScore: Map the mind model

The e-content with various learning reinforcement strategies maps the mind of every learner. Innovative activities scheduled for every lesson help students in team interaction, presentation, conceptual clarity and thus authority in those learning modules with variety of input on various problem solving exercises to reinforce their learning. Every lesson taught in an iScore class is accessible upto one week online to engage even beyond the tutoring session.

iScore: Advantages

Technology atwork:

The delivery of the e-content is through an Android powered next generation tablet to facilitate personalized learning and self paced exploratory learning model.

Wifi spot:

An iScore classroom is a Wifi spot to connect the students to access and undertake the pre-scheduled courseware by expert i-Score teachers.

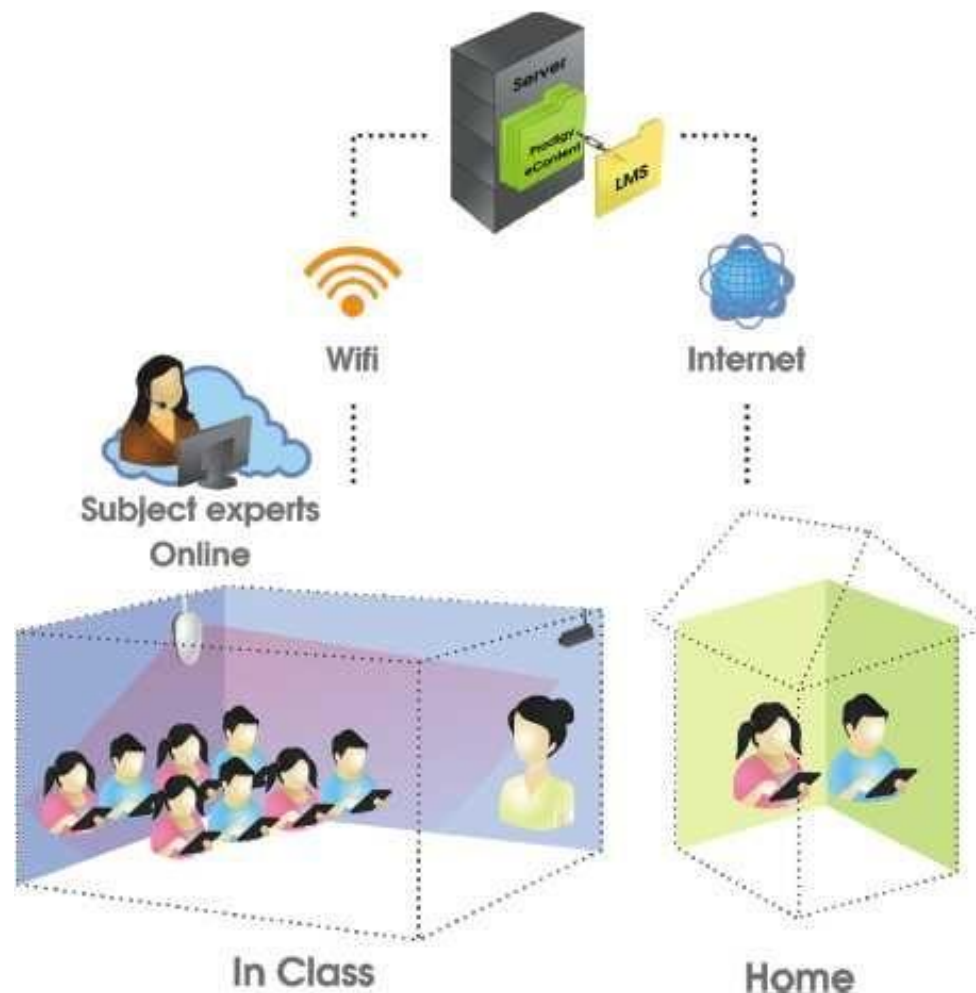

Customised curriculumcontent:

The customized learning for every student in a predefined course structure for access and sync with the school syllabus taught for the day.

Multilayer personalized academic assistance:

In an unlikely event, when a student, could not achieve conceptual clarity after her self paced exploratory session, she can avail assistance from the academic coordinator in the center or from the center head teacher or opt for the remote teaching assistance from an expert teacher through online tutoring from the iScore head office.

- Access digital content
- Subject experts
- Available online
- Interactive learning
- Formative and Summative

Access selective content, assessments and reports

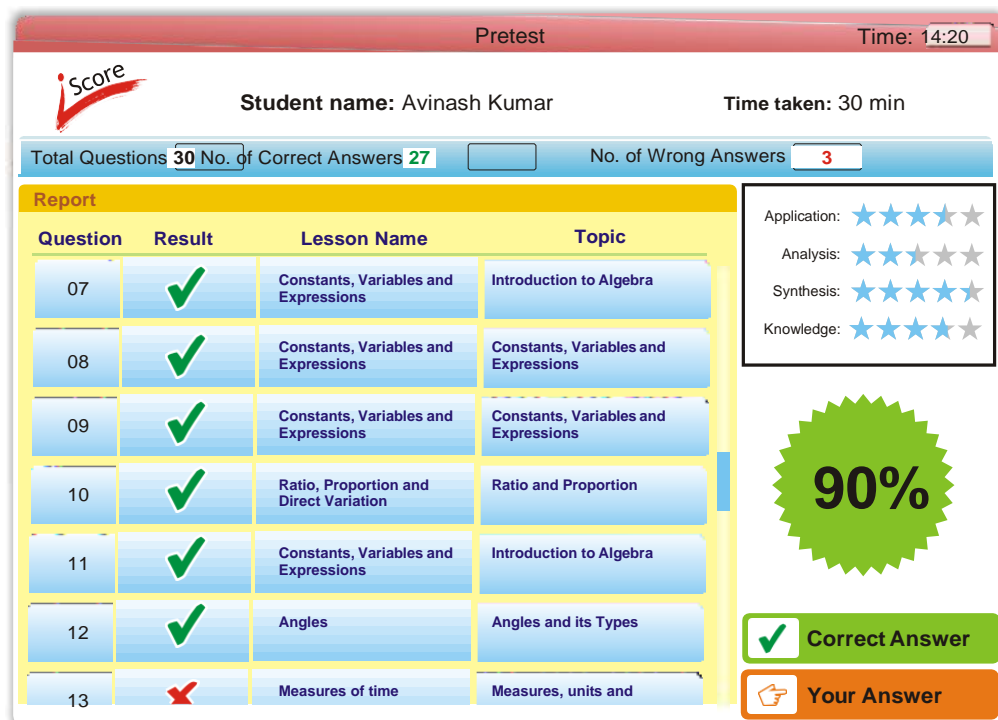

Session breakup:

Every session of 90 minutes is a logical blend of e-content assisted learning, normal text book based reading and a quick test/ practice test to ensure the stellar academic performance of every student.

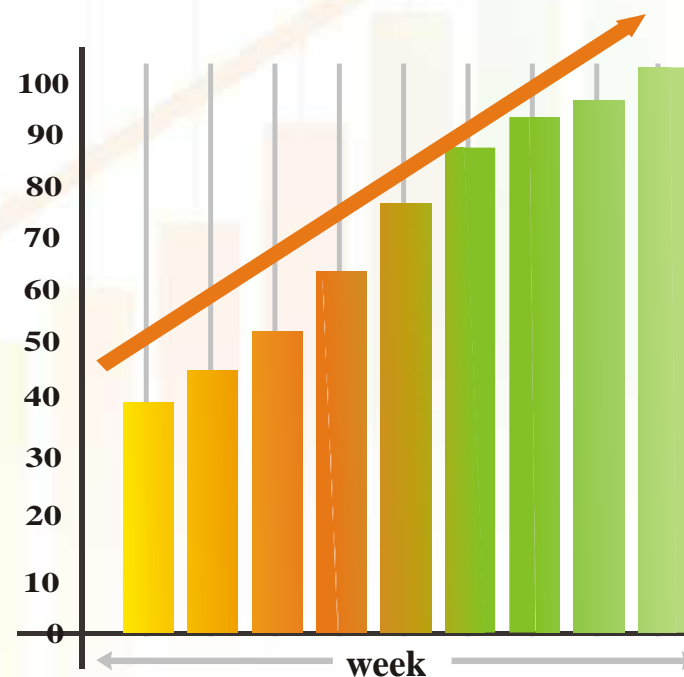

Sessions in sync with school syllabus: iScore sessions are synchronized with the school lesson plan to provide requisite homework assistance to the student. This helps in providing additional support and reinforcements for tests being conducted by the schools.

Parents Value addition

- Access and view the classroom online while your child is present in the iScore classroom
- Get daily SMS alerts on your child's attendance
- Get daily detailed academic performance report through email
- Pay easily through our secure online gateway
- Get daywise learning schedule for the entire academic year/ term on joining (subject to the availability of the respective school lesson plan)
